Mike Robbins - Kimberly Pines Estates

Mike Robbins, the Developer of the Kimberly Pines Estates addressed the Council to discuss South Milton which is the existing street that will access the lots of his proposed subdivision. Mr. Robbins said the city engineer said the east side of S. Milton needs to be improved with sidewalk, curb, and gutter, and will need catch basins installed for storm water drainage. Mr. Robbins said there is no other properties along that street that have curb and gutter. He said there is nothing to tie into, but when future development occurs it may be more feasible to do the improvements at that time. He suggested funding be given to the city for when that time comes. Jeff said he is developing a new subdivision and the standard should be followed. He said if this is done in the future the landowners will end up paying for an LID. Mr. Robbins said the cost is prohibitive for a four-lot subdivision. Other various options were discussed that might be possible. Adam said he feels Mr. Robbins should present a cost for the improvements and the city should hold it until future development occurs. Mr. Robins said Harper Leavitt Engineering could present a cost for the project and he could return it to the council. At that time the council will determine if the improvements needs to be done now or if the developer can give the city the anticipated cost to be held until further development occurs.
