Sandy presented a request for review of a Special Use Permit in Bingham County to expand an existing gravel pit at approximately 585 N. 775 E. The Mayor and Council discussed this matter and had no comments or concerns.

Sandy said she and Chuck have discussed the items that are being put in city sanitation cans and some of the construction and demolition (C&D) is very heavy and damaging to our cans. She said the residents are charged for their sanitation cans based on normal household waste, and the city is actually paying more than collecting for the heavy debris. Chuck said the city could provide a city truck to be loaded and hauled to the Rattlesnake site for the appropriate fee, or we could refer any resident doing a C&D project to contact a private contractor to remove the debris. The council concurred that any C&D waste should be hauled to the Rattlesnake Transfer site or the resident should contact a private contractor.

Chuck said he and Justin reviewed the entire city and made a list of 166 properties that did not meet city ordinance regarding the trees or foliage that obstructs sidewalks, streets and fire

hydrants. The letter sent to each property owner asked that the trees or shrubs be trimmed so they did not obstruct any right of way. It stated that if a property owner could not trim the trees due to physical limitations to contact the public works department for recommendations. Chuck asked BJ if the city could remove a branch or trim a tree without any city liability. BJ said he will need to review this matter.

Alan said the Preparedness Fair will be from 9 a.m. until 1:00 p.m. this Saturday at the Shelley High School.

Mayor Christensen said the Eastern Idaho Regional Wastewater Authority will hold their monthly meeting this Thursday at 10:00 a.m.

Adjourned: 7:45 p.m.
